3. Gasteiz / Donostia

04/05/2017 160.5 km.

Stage between Gasteiz and Donostia is a hilly one. 6 hills in total, without rest in last 100 kms. From Udana to Mandubia and heading Santa Ageda after on (definitely, hardest climb of the day), strongest riders have enough terrain to start a break in first 3 climbs. Anyway, stage will probably decide during the climb and long descent of Andazarrate and climbing last hill of the day Mendizorroitz. Once they climb it, they have some false flat kms until they start downhill in Igeldo. We know that a few seconds difference in Igeldo can be enough to win in the finish line of the Boulevard.
